

SPECIFICATION

Please insert the following immediately after paragraph [0041].

-- [0041.1] The physical object may be a first of an ordered set of physical objects. In such case, if it is determined in steps 104 and 106 that the first digital image is not substantially blank, a first set of digital images can be obtained and sent for processing by image manager 52. Each digital image of the first set is a digital image of a first side of a physical object of the ordered set of physical objects. If it is determined in steps 104 and 106 that the first digital image is substantially blank, a second set of digital images can be obtained and sent for processing by image manager 52. Each digital image of the second set is a digital image of a second side of a physical object of the ordered set of physical objects. --
